Work Experience

Chief IT specialist

Company Vkleyka,Almaty, Kazakhstan
01.2023 - Current

- Starting out as a skilled UX/UI designer, I created over 50 modern and user-friendly websites, focusing on design excellence. I also managed PPC campaigns, resulting in a 60% efficiency improvement. Additionally, I led the redesign of the CRM system, contributing to an 80% increase in sales. As my responsibilities grew, I integrated the GPS monitoring system and led the Sales Department. Simultaneously, I played a key role in designing the UX/UI for the company's innovative application. This experience equipped me with a versatile skill set spanning design, technical finesse, management, and strategic insight, enabling me to excel in various roles and contribute to the company's growth.
